README.md 10/29/2019

Discrete Hidden Markov Model

Digital Speech Processing (DSP), HW1

電機三 沈哲瑋 B06901090

Result:

• after training 1000 epoch

acc : 2151 / 2500 0.8604

How to run my program

- compile:
 - o training:

make train

o testing:

make test

o clean folder:

make clean

- excute:
 - o training:

```
./train <iter> <model_init_path> <seq_path> <output_model_path>
```

o testing:

./test <models_list_path> <seq_path> <output_result_path>
